

In order to authenticate an app to retrieve your health data, follow these steps:

1. Access the application on your personal device. Carefully review the app's terms and conditions.
2. Follow the steps in the app to add a health care provider data source and select your health system.
3. You will be redirected to your account login page. Enter your username and password.
4. If you have proxy access for another person, you will need to select which account you are linking the app to.
5. Next, you may see an authorization page with details about the application. These details come from a questionnaire that the app developer fills out and attests to, such as how the app is funded, whether it distributes your data to other parties, and whether you are able to delete or see records of the data the app collects. Review this information carefully and determine whether you would like the app to have access to your health information. If you would like to allow the app to access your data, check the "I have read the statements above" box, and then click "Allow Access".

Example of an authorization page:

**Allow Access to Your Account**

Medication Tracker wants you to share your health data with them by linking your MyChart account. Note that this app might have been created by a developer who is not affiliated with your healthcare organization.

**What you need to know about Medication Tracker**

Before allowing Medication Tracker to access your account, please be aware of the following important details. This information is provided by the creators of Medication Tracker.

 <b>Who is offering the app?</b> This app is provided by your healthcare provider, who must follow HIPAA federal health privacy laws.	 <b>How is this app funded?</b> This app is funded by your healthcare provider. This app is funded by grants from NIH and NSF.
 <b>Where does this app save your data?</b> This app saves your data locally on your device.	 <b>Who has access to your data when you provide it to this app?</b> Other than you, the following people may have access to the data that you provide this app: People you authorize. You will specifically approve each time your information is accessed or shared.
 <b>Does this app allow you to obtain a record of the data that it has collected about you?</b> This app allows you to obtain a complete record of the data that it has collected about you.	 <b>Does this app allow you to delete the data it has stored about you?</b> This app allows you to delete all of the data that it has stored about you. Keep in mind that, even if the app has deleted your data, the app can't get back data provided to third parties. The app can continue to use your data according to the agreement even if you close your account and delete the app from your device.
 <b>How does this app use your data?</b> This app may use data about you to improve its services in the future.	

**Allow or Deny Access**

Medication Tracker wants your permission to access the following information:

---	--	---

If you have concerns with any one of the points listed above, please deny Medication Tracker from accessing your account.

If you want to grant access, please proceed by confirming that you have read the app's Terms of Use.  I have read the full Terms of Use

**DENY ACCESS** **ALLOW ACCESS**

If the app developer has not provided additional information about how your data may be used, you may see a warning message:

This app's developer has NOT yet submitted to us how they plan to use your data. Once your data has been shared with Money Maker, it could be made public and you may not be able to revoke access to it.

**We recommend that you deny access to your account.**

This app's developer has not shared any of the following Terms of Use:

- How your data will be stored
- Who will have access to your data when it is provided to the app
- If this app tells you about the data it has collected about you
- How your data will be retained

### Allow or Deny Access

Money Maker wants your permission to access the following information:

This app will have access to your information until  
Tuesday September 11, 2018, 4:54 PM

- |                       |               |
|-----------------------|---------------|
| Allergies             | Lab Results   |
| Primary Care Provider | Medications   |
| Demographics          | Plan of Care  |
| Documents             | Problems      |
| Health Goals          | Procedures    |
| Social History        | Immunizations |
| Implants              | Vitals        |

**Because the app's developer has not informed us of how they plan to use your data, we recommend that you deny access to your account.**
