

## Automatic External Defibrillators Now Available in Wright County

The Heart Safe partnership was started to combat Sudden Cardiac Arrest (SCA), the number one killer in the nation where ordinary citizens can have the greatest impact. Heart Safe Communities of Wright County is working with local communities to place Automated External Defibrillators (AEDs) and to train citizens to use them. AEDs ‘shock’ the heart back to a normal rhythm following an electrical malfunction of the heart which causes it to stop pumping. Victims of SCA must receive treatment (defibrillation) within minutes or they will die.

The Heart Safe partnership of Buffalo Hospital Foundation and Cardiac Center, Allina Medical Transportation and Allina Hospitals & Clinics has placed more than 80 AEDs in and around Wright County to-date. In addition, 80 AEDs are available in all squad cars throughout Wright County. To learn more about Heart Safe or to make a donation, call Buffalo Hospital Foundation at 763.684.6800.

# Heart Safe AED Placements through May, 2008
